“I’ve read something about Enneagram before but I never found it very interesting, until I attended this training. Gran is very knowledgeable in the subject and successfully gained 100% attention from the audience. His interactive style and activities were very useful and entertaining. Before the training, I never knew I had a 9 Personality (Peaceful Person) until I did the Enneagram questionnaire. It was an eye-opener for me as it makes me understand more of my characteristics. Gran also taught us how to understand other person’s personality, which from my perspective can be easily applied in our day to day lives, but most especially in the workplace. In summary, I would recommend this training to everyone who is interested to learn more about their personalities and to understand their partners, colleagues and people around them.”

“This program helped me to understand myself and my team members better. It helped me to recognise some specific traits of a type and I can quickly adjust to understand the person better and speak his or her language. When we understand each other better, we can communicate and empathise better and be more tolerant. Everyone should come for this course to know themselves and who they are working or dealing with!”
